

KNOW YOUR CUTS

SPARKLE SCOOP STONE CUTS

At Bomb Party, we love to use a timeless mix of classic and innovative stone cuts in our jewelry. Each stone is selected for its color and quality, and the facets are cut front and back to give the most light and dimension to each piece.

Each season we push the envelope to introduce new and innovative stone cuts that keep the collections fresh and modern. This handy sheet will help you with the names and styles that you see every day in our products.
